PROFILE

Former U.S. Marine Corps Sergeant with five years of service (July 2019-July 2024), including security operations and personnel leadership at the White House Communications Agency. College of Charleston Computer Information Systems student seeking a Summer 2027 internship in technical security, cybersecurity, IT, information systems, or defense technology.

SECURITY EXPERIENCE

White House Communications Agency | Security Operations and Leadership | Jan 2021-Dec 2022

- Progressed from Post Stander (Jan-Apr 2021) to Team Leader (~4 personnel, Apr-Aug 2021), Squad Leader (~12, Aug 2021-May 2022), and Section Leader/NCOIC (up to 27, May-Dec 2022).

- As Sergeant of the Guard, supervised 16+ posted Marines and managed shift-level security operations across three compounds simultaneously, including post assignments, access-control issues, personnel accountability, incident response, and reporting.

- Presented monthly security and readiness updates to WHCA leadership and interagency partners. Planned and instructed security and emergency-response training events for groups of 30+ Marines.

- Assisted technical-security personnel with security equipment and supported physical security requirements for sensitive communications assets and SCIF environments during domestic and international missions.

1st Battalion, 1st Marines | Team Leader / Assistant NCOIC | Jan 2023-Feb 2024

- Team Leader, B Company (Jan-Jun 2023); Assistant NCOIC, ADRC (Jun 2023-Feb 2024).

Marine Barracks Washington | Post Stander / Team Leader | Mar 2020-Jan 2021

- Provided shift-based physical security for senior Marine Corps and Navy leadership, their families, and guests; served in a continuous security operation with recall requirements.

TECHNICAL PROJECTS

AI Emotion Detection | Developer

- Built a Python webcam demo with OpenCV face detection and a TensorFlow/Keras happy/sad classifier. Security-camera use was conceptual; the program does not detect threats or people needing assistance.

Titan Brazilian Jiu-Jitsu | Website developer

- Worked with the owner to plan, code, deploy, and revise a responsive class and trial-inquiry website. Used HTML, CSS, JavaScript, GitHub Pages, DNS, HTTPS, and FormSubmit.

Cooper Counseling | Website developer

- Built and deployed a multi-page counseling website, integrated a Hushmail contact form, supported hosting and domain migration, improved SEO metadata and routing, and made owner-requested revisions.

EDUCATION & SKILLS

College of Charleston | B.S. Computer Information Systems | Expected Fall 2027

Overall GPA 3.259 | CIS GPA 3.386 | Completed: Applied AI, Programming I & II, Management Information Systems | In progress Fall 2026: User Interface Development, Entrepreneurship

Development: HTML, CSS, JavaScript, Python, Java | Deployment: Git, GitHub, DNS, HTTPS | Security: access control, camera and alarm monitoring, emergency response, incident reporting, SCIF security support

AWARDS AND RECOGNITION

Presidential Support Badge (Jan 2022) | Marine Corps Good Conduct Award (Jul 2022) | Letter of Appreciation from the Sergeant Major of the Marine Corps | Global War on Terrorism Service Medal

SECURITY CLEARANCE

TS/SCI obtained in 2020.
