PROFILE

Former U.S. Marine Corps Sergeant and College of Charleston CIS student seeking a Summer 2027 internship in cybersecurity, technical security, IT, or information systems. Five years in security operations and leadership, including WHCA national-security missions; now developing programming, web, and applied AI skills.

EXPERIENCE

White House Communications Agency | Security and Section Leadership | Jan 2021–Dec 2022

- Provided 24/7 security for assets vital to national security in coordination with the U.S. Secret Service and other agencies, supporting Presidential and Vice-Presidential missions.
- Progressed from Post Stander to Team Leader (4 personnel), Squad Leader (12), and Section Leader/NCOIC (up to 27).
- As Sergeant of the Guard, coordinated 16+ Marines in daily post operations; supported access control, camera and alarm monitoring, threat and emergency response across three compounds.
- Delivered monthly updates to DoD stakeholders; facilitated or supported security and emergency-response training for 30+ Marines. Supported technical-security personnel with protective measures for sensitive mission environments.

1st Battalion, 1st Marines | Team Leader / Assistant NCOIC | Jan 2023–Feb 2024

- Led and mentored Marines while supporting training, readiness, personnel accountability, and mission execution at Camp Pendleton.

Marine Barracks Washington | Post Stander / Team Leader | Mar 2020–Jan 2021

- Provided physical security supporting senior Department of Defense leadership and security procedures in sensitive environments.

SELECTED TECHNICAL PROJECTS

Local business websites | Independent developer

- Built and deployed live websites for Titan Brazilian Jiu-Jitsu and Cooper Counseling, translating client requirements into responsive pages and clear inquiry paths. Worked with HTML, CSS, JavaScript, Git, production hosting, DNS, HTTPS, forms, and SEO.

AI-Assisted Physical Security Management System | Work in progress

- Exploring a simulated access-log and incident-review workflow with AI-assisted event explanations and human decisions. Concept and development stage; no completed detection system claimed.

EDUCATION & SKILLS

College of Charleston | B.S. Computer Information Systems | Expected Fall 2027

Overall GPA 3.259 · CIS GPA 3.386 · Applied AI, Programming I & II, User Interface Development, Management Information Systems Development: HTML, CSS, JavaScript, Python, Java · Deployment: Git, GitHub, GitHub Pages, DNS, HTTPS · Security: access control, surveillance and alarm monitoring, emergency response, risk management

RECOGNITION

Presidential Support Badge · Marine Corps Good Conduct Award · Letter of Appreciation · TS/SCI obtained in 2020 (current status not stated)
